FORST ST8D

---

# FÖRST ST8D

55HP | 8" | DIESEL

The perfect combination of performance and size.

A favourite with city arborists who want all the performance but want it as compact as possible. The ST8D will process anything up to 8" with speed, aggression and efficiency.

Light to tow, easy to push about, yet offering a chipping speed to rival much bigger machines, the ST8D needs to be seen to be believed.
